Summary

- UX/UI designer with well rounded skills and focus on interface design
- Quick study with a variety of software and soft skills under the belt
- Strong left brain & right brain skills, finding balance between function and beauty

Technical Skills

Technical: Miro, Figma, Adobe XD, HTML/CSS, JavaScript
UX/UI: User research, empathy, visual style, communication

Projects

Valley Youth Theatre Website Redesign | https://xd.adobe.com/view/d1daf2b6-78ef-49f6-85a4-0f10dcc3fc85-8489/

- Ground-up redesign of local nonprofit site, with visual update and usability in mind
- Primary responsibilities included originating wireframes and defining visual guidelines
- Built using Miro & Adobe XD, plus team communication platforms Slack & Trello

ED.gov Responsive Redesign | https://invis.io/DJZLHHFBZ2F

- Created responsive prototypes for both desktop and mobile use cases
- Conducted user testing on target site and used data to prototype new version
- Built using Figma & InVision, after collating data using Google Suite docs & sheets

BarkBuddy App | https://www.figma.com/proto/cbrPWKMmZdqKmV6qkS7cqh/BarkBuddy?node-id=50%3A23&scaling=min-zoom

- Brainstormed and landed on app idea for tracking dog health docs digitally
- As part of a team, my role was focused around user research and lo-fi wireframing
- Built using Miro & Figma, plus team communication platforms Slack & Trello

Experience

Disbursement Coordinator 2017 – Present
Cushman & Wakefield Tempe, AZ

Responsible for printing/mailing over 2000 checks per day, as part of the national corporate hub for vendor payments. With large amounts of money going through our department, attention to detail is extremely important, as is a working knowledge of Excel & Word.

Education

UX/UI Bootcamp Certificate: University of Arizona, Online

Six-month course focusing on UX/UI skills using a variety of software ranging from Miro to Figma and Adobe XD, and eventually HTML/CSS & Javascript. Covered the entirety of UX/UI process from research to wireframing and prototyping to front end development and beyond.

AA in Audio Production Technology: Mesa Community College, Mesa, AZ

Two-year program including general education requirements and focusing on the art of sound recording. Trained on a variety of recording software and learned multiple applicable skills to any position involving a combination of creative ideating and analytical thinking.
